## THE JEWS IN OUR MIDST

By Merwin K. Hart

From Economic Council Letter No. 427

It is impossible to weigh the present situation in the U.S. without consideration of that part of our population who are of the Jewish faith, or are known as **JEWS**.

**Merwin K. Hart**

But especially in the last 40 years, certain of the more aggressive Jews have formed groups, one of whose chief aims is to mold the American Republic into something very different from what it has always been. These have been the chief elements in creating friction and even hatred among various groups in America. They have prated about "bias," "prejudice," "anti-Semitism," and "hatred," when, in fact, most of the hostility and "hatred" has been on the part of many fanatical Jewish leaders, whose intolerance toward either Jews or non-Jews who disagreed with them has been great indeed. They have not hesitated even to take America into situations which, if not checked, will involve us in war.

Rather curiously, some of the more aggressive Jewish leaders and organizations clearly make great efforts to prevent any discussion about Jews. They so resent even the mention of the word, Jews, by non-Jews, as to raise several questions—questions which effect all Americans.

To avoid facing the facts and speaking out plainly on this subject now would be a disservice to all America. It would be an act of cowardice!

Never in history has a country offered greater opportunity to the peoples of all countries including, if not especially, the Jews in the U.S. In fairness to all Americans, including Jews themselves, we propose to set forth certain facts and discuss them.

In the past 40 years Jews have become a mighty force in this land—a force out of all proportion to their alleged numbers. In recent years the American Jewish Committee furnished figures, which have been published in the **World Almanac** and elsewhere, to the effect that there are 5,200,000 Jews in the United States. In the **World Almanac** of 1943, the number of Jews (figures from the Jewish Statistical Bureau of the Synagogue Council of America) was stated to have been 4,770,000 in 1937. Thus, there was an admitted increase in the following 21 years of only 430,000, or less than ten per cent. The increase in the population of the U. S. as a whole during this 21 year period was thirty per cent. This suggests that the estimate of Jewish population for 1958 of 5,200,000 is at least questionable.

One of the best authorities in this country on immigration is the present Chairman of the House Committee on Un-American Activities, Representative Francis E. Walter of Pennsylvania. Mr. Walter stated in the **Reader's Digest** for May 1953 that there were then some three to five million aliens illegally in the U.S. The question arises as to the race or religion of these.

It is an interesting fact that on Nov. 8, 1943, an order was issued to the Immigration and Naturalization Service by the then U.S. Commissioner of Immigration and Naturalization, with the approval of Attorney General Biddle, to the effect that the statistics kept by that service on immigrants who had been admitted into the U.S. should no longer contain, as separate

**Representative Francis E. Walter**

In May 1953 Rep. Walter, at present, the Chairman of the Committee on Un-American Activities, said that there were then 3 to 5 million illegal aliens in the U.S.

items of racial classification, the categories which theretofore had been listed as Hebrew or Jewish.

This action followed a considerable agitation by Jewish organizations and individuals who protested the inclusion in immigrant visa applications of mention of the Hebrew or Jewish race. The reason given was that this was a required statement of the applicant's religion.

Therefore, it is in order to ask whether

## Walter Reuther's Advice To His Comrades Is To Carry On The Fight For A Soviet U.S.

It takes quite a bit of nerve on the part of Walter Reuther to pose so amicably with the President of the United States at the White House on March 14, 1958. This same Reuther, who with his brother, Victor, on Jan. 21, 1934 wrote the letter from Moscow which is reprinted below. But nerve is something these Marxists have plenty of!

Eisenhower poses as a Republican although he was proposed as the Democratic candidate for President by Jacob Arvey at a dinner in Chicago in 1948. At the present time Reuther is regarded as the most probable future candidate for President on the Democratic ticket. Referring to the photo herein, just what is it that Ike and Reuther have in common that brings forth such happiness?

Surely Eisenhower knows by now all there is to know about the bloody strike

**Reuther and Eisenhower in a jolly mood**

Reuther and his goon squads have forced on the Kohler Company for the past five years. Street fighters were imported from Detroit direct to Wisconsin to intimidate or beat up peaceful Kohler workers and their families. They even killed a man, and tossed acid and paint into the homes of any

worker attempting to go to work to support his family. Reuther is Vice President of the AFL-CIO and is slowly and surely crowding Meany for the Presidency.

Reuther's union, the UAW, has spent approximately 12 million dollars in his avowed effort to destroy the Kohler Co., to this day he boasts that he is promoting the campaign to boycott Kohler plumbing supplies. Reuther's public relations representative, Don Rand, said; "It seems to me that it is almost sinful to have any labor dispute degenerate to the point this one has, where we actually have to wreck the Company. That's what we're doing, wrecking the Company."

It was Walter Reuther, just back from Moscow who introduced the sit down strike in the United States!

Walter Reuther is as powerful a man as
